

PROTECT YOUR LOVED ONES

Will you be able to protect your loved ones and stand up for the lives of our elders or the Disabled in their time of need?

“For Profit Professional Guardianship” can ruthlessly and systematically *take control* of an innocent person’s life—and LITERALLY OWN THEM AS A NON HUMAN PIECE OF PROPERTY!! They strip away the victim’s precious civil rights, sell their homes, take over their bank accounts, put them away in nursing homes where they are often placed in chemical restraints with lethal antipsychotic medications to shut them up and even strip them of their names calling them “the ward”! These unlicensed “guardians” have the blessing of the Probate Court to seize wards’ life and assets and enrich themselves with outrageous Court Sanctioned fees.

Even if you have a legal document such as a Power of Attorney, and even if you are the Pre-need guardian for a senior citizen or a disabled loved one, their advance directives may be nullified and ignored. An unlicensed “Professional For Profit predatory guardian”, with the help of an unethical attorney and an uncaring judge, can have all your legal documents REVOKED so that you will have no rights or say so in a Court of Law.

In this illegitimate process where you cannot protect or defend your loved one because they have been taken by this “guardian”, families are irrevocably destroyed. Estates and inheritances looted and plundered by this cruel form of Identity theft and human trafficking. And this happens EVERY DAY in America -If you knew how real this threat is to you and your loved ones, you would be terrified.

We need your help to petition the government to stop this horrible abuse of power against vulnerable elders. We are Americans Against Abusive Probate Guardianship, the participants in the 13th annual Boomer Expo.
